

# HOLD\*BLAST™ VAPOR

**NO SCUM** buildup in expensive blasting equipment, **even with use of hard water.**

*With Tank Volume Indicator*

**As a surface passivator, HOLD\*BLAST™ VAPOR chemically changes the active surface of metal to a much less reactive state.** Surface corrosion can occur when water wet surfaces react with atmospheric oxygen. This often results in the formation of flash rust, which can be eliminated with the use of HOLD\*BLAST VAPOR. This product passivates the surface to **stop the formation of surface rust for long periods of time**, often several days.

- PREVENTS FLASH RUST
- USE IN STANDARD OR UHP WASHER
- ADD TO VAPOR ABRASIVE BLASTING
- ADD TO WET ABRASIVE OR SLURRY BLASTING
- BIODEGRADABLE
- IMMEDIATE RESULTS
- NON-FLAMMABLE
- NON-DETECTABLE LEVEL OF VOCS WHEN APPLIED
- PROTECTS BLASTING EQUIPMENT FROM HARD WATER DAMAGE
