

# CHLOR\*TEST™ “CSN Salts”

(Chloride / Sulfate / Nitrate Ion Tests for Surfaces)

**A Complete, Accurate and Easy “Salt” Field Test Kit for Surfaces**

# CHLOR\*TEST™ “CSN Salts”

**CHLOR\*TEST™ “CSN Salts” kits test in-field for chloride, sulfates, and nitrates with one easy extraction.**

- Unlike competitive salt kits, which only test for chloride
- Includes patented CHLOR\*EXTRACT™ solution and CHLOR\*SLEEVE™

**Unique patented extract solution, CHLOR\*EXTRACT™, effectively retrieves surface salt contamination.**

- This special extract enhances retrieval rates, thereby increasing accuracy.

**Patented CHLOR\*SLEEVE™ simplifies surface sampling.**

- Sampling can be done overhead, vertically, horizontally, or at any angle with this device.
- All test results are measured directly in parts per million. No conversion charts are needed.
- Parts per million readings are a 1 to 1 ratio to micrograms per square centimeter. No mathematical calculations are necessary.
- Nitrate Testing is easy and measures a wide 0-50 ppm range.
- Cross contamination is limited with one-time use components.
- Easy to perform – does not require special training.

# Accurate and Easy to Use in the Field

**EPA Compliant** – No need to select a low or high range. Meters range is 0-100 ppm with auto ZEROING.

**Digital direct readings** with a large 3½" digital display incorporating low-battery warning.

**European CE Mark of compliance** for electromagnetic compatibility and safety.

**Quantitative results** are achieved in minutes. Each kit contains (5) individual tests with new refill kits available.

All components are pre-measured and pre-dosed for accuracy.

## Colorimeter Specifications

- Water resistant design
- Auto zero
- Hinged light cover
- Digital direct readings
- European CL-Mark Compliant
- EPA Compliant
- 9-volt power source (included)
- Single wavelength
- Photometric  $\pm 0.001$  absorbency
- Accuracy  $\pm 1$  ppm
- Low battery warning (BAT)
- Overrange (Er2)
- Burnt out bulb (Er3)

## Optional Accessories

- AC adapter 110 60Hz/220 50Hz
- RS-232 Interface Cable

## CHLOR\*TEST™ “CSN SALTS” kit is recommended for surface testing on:

- Bridges
- Aircraft
- Mining facilities
- Ships
- Marine structures
- Storage tanks
- Cooling towers
- Pipelines
- Power plants
- Offshore rigs
- Petrochemical plants
- Pulp and paper mills
- Steel fabrication
- Electronics

**CHLOR\*TEST™ “CSN Salts”**  
Accurate, easy, and complete  
in-field test kits.

**Maximize corrosion protection. Reduce premature coating failure.**  
**Test every surface before coating application.**

When specifications require  
testing for chlorides, sulfates,  
and nitrates, count on  
**CHLOR\*TEST™ “CSN Salts.”**
